DESIGN . MAKE. INNOVATE.

We reinvent your relationship with the natural world to energize the dynamic between the outside and in. Constant innovation of our unique technique for making the best lightweight concrete like product available means we continue to bring you the highest quality and best design. Our custom capabilities continue to surprise clients who bring their most challenging projects. The combination of our materials help clients create strong harmonious environments. We continue to place pieces in fantastic hotels and residences, on roof tops and in new restaurants across the country.

WHAT MAKES US UNIQUE

UNEXPECTEDLY LIGHTWEIGHT

Hand-cast furniture designed to appear like sculpted concrete. Combining fiberglass and an aggregate mix to achieve a concrete effect at a fraction of the weight.

FOUR-SEASONS DURABILITY

Treated for a modern weathered look, this collection is designed to last and look better with age. Thoughtful water drainage and enduring finishes allow these pieces to remain outside year round with minimal maintenance.

FUNCTIONAL & SOPHISTICATED

Designed to fit into all environments, indoors and out. When not in use, the pieces become sculptural elements worthy of conversation.

100% HAND CRAFTED IN THE USA

Our products are handcrafted in Chicago, Illinois. We manufacture our products in a unique way that allows for more efficient shipping methods, burning fewer fossil fuels and helping minimize our carbon footprint.

DESIGN ORIGINALS

Together we can bring your concrete designs to light. Whether you have something new in mind that requires sophistication with the cool, calm, collected tones of concrete; or if you already crave a current design but have particular needs, our designs can be changed to any dimension meeting your project specification. We are happy to quote your big job.
