Professionally clean only.

POLYPROPYLENE & RECYCLED POLYESTER (P.E.T.)

Our indoor/outdoor rugs, cushions, and poufs are hoseable and bleachable. Take them outside and hose them down or rinse them off in the sink. Air dry. Please do not machine wash or tumble dry.

Due to the specific weave of pet rugs, we recommend using a soft vacuum brush for cleaning. Using the standard brush head on your vacuum may cause pulls, pilling, and damage to your rug due to the abrasiveness of the brush. If possible, turn the brush setting off on your vacuum before use, or set the beater bar at the setting farthest away from the rug so there is no abrasion. Using the upholstery attachment to vacuum may also help prolong the life of your rug.

To clean polypropylene tote bags, brush lightly with fresh or soapy water, or spray with a hose. Air dry.

Not dry cleaning.

BEAUTIFUL HAND IMPERFECTIONS

Occasional stray loops of yarn... It is perfectly normal. Stray pieces of yarn or loose threads may pop up from our woven rugs. This is perfectly normal and inherent to hand weaving. The thread or the loop should not be pulled nor cut. Simply tuck and pull it back through the underside of the rug. Due to the handmade quality of our rugs, they may vary slightly in size and/or color.

P.E.T. (Recycled Polyester)

P.E.T. is an abbreviation for polyethylene terephthalate. It is a non-chemically-treated, recycled polyester that's as earth-friendly as it is gorgeous.

Our P.E.T. rugs are hoseable and bleachable. Take them outside and hose them down or rinse them off in the sink. Air dry. Please do not machine wash or tumble dry.

Our ultra-durable and easy-clean P.E.T. rugs have a soft, pliable texture that is often mistaken for wool. In order to achieve its rustic charm in some recycled polyester rugs, these rugs have been woven with large-diameter yarns. Consequently, slubs, knots, and other imperfections inherent to the hand-weaving process may be more visible on this style of rug than on a machine-woven rug or a rug made with small-diameter yarns. These imperfections are by intent and should not be considered defects.
